ELEMENTS

RubberBond Elements Catalog

RUBBERBONDELEMENTS.COM

Big Dreams Land Softly

RubberBond Elements gives designers and builders the freedom to turn ordinary spaces into standout destinations.

RubberBond Elements elevates the look, feel and creativity of your project — but the performance starts with RubberBond Elevate, our proven, impact-attenuating system trusted by schools, parks, municipalities and commercial properties across the United States.

RubberBond Elevate
=
Performance

Elevate delivers the critical fall height protection, durability and compliance today's playgrounds and public spaces require.

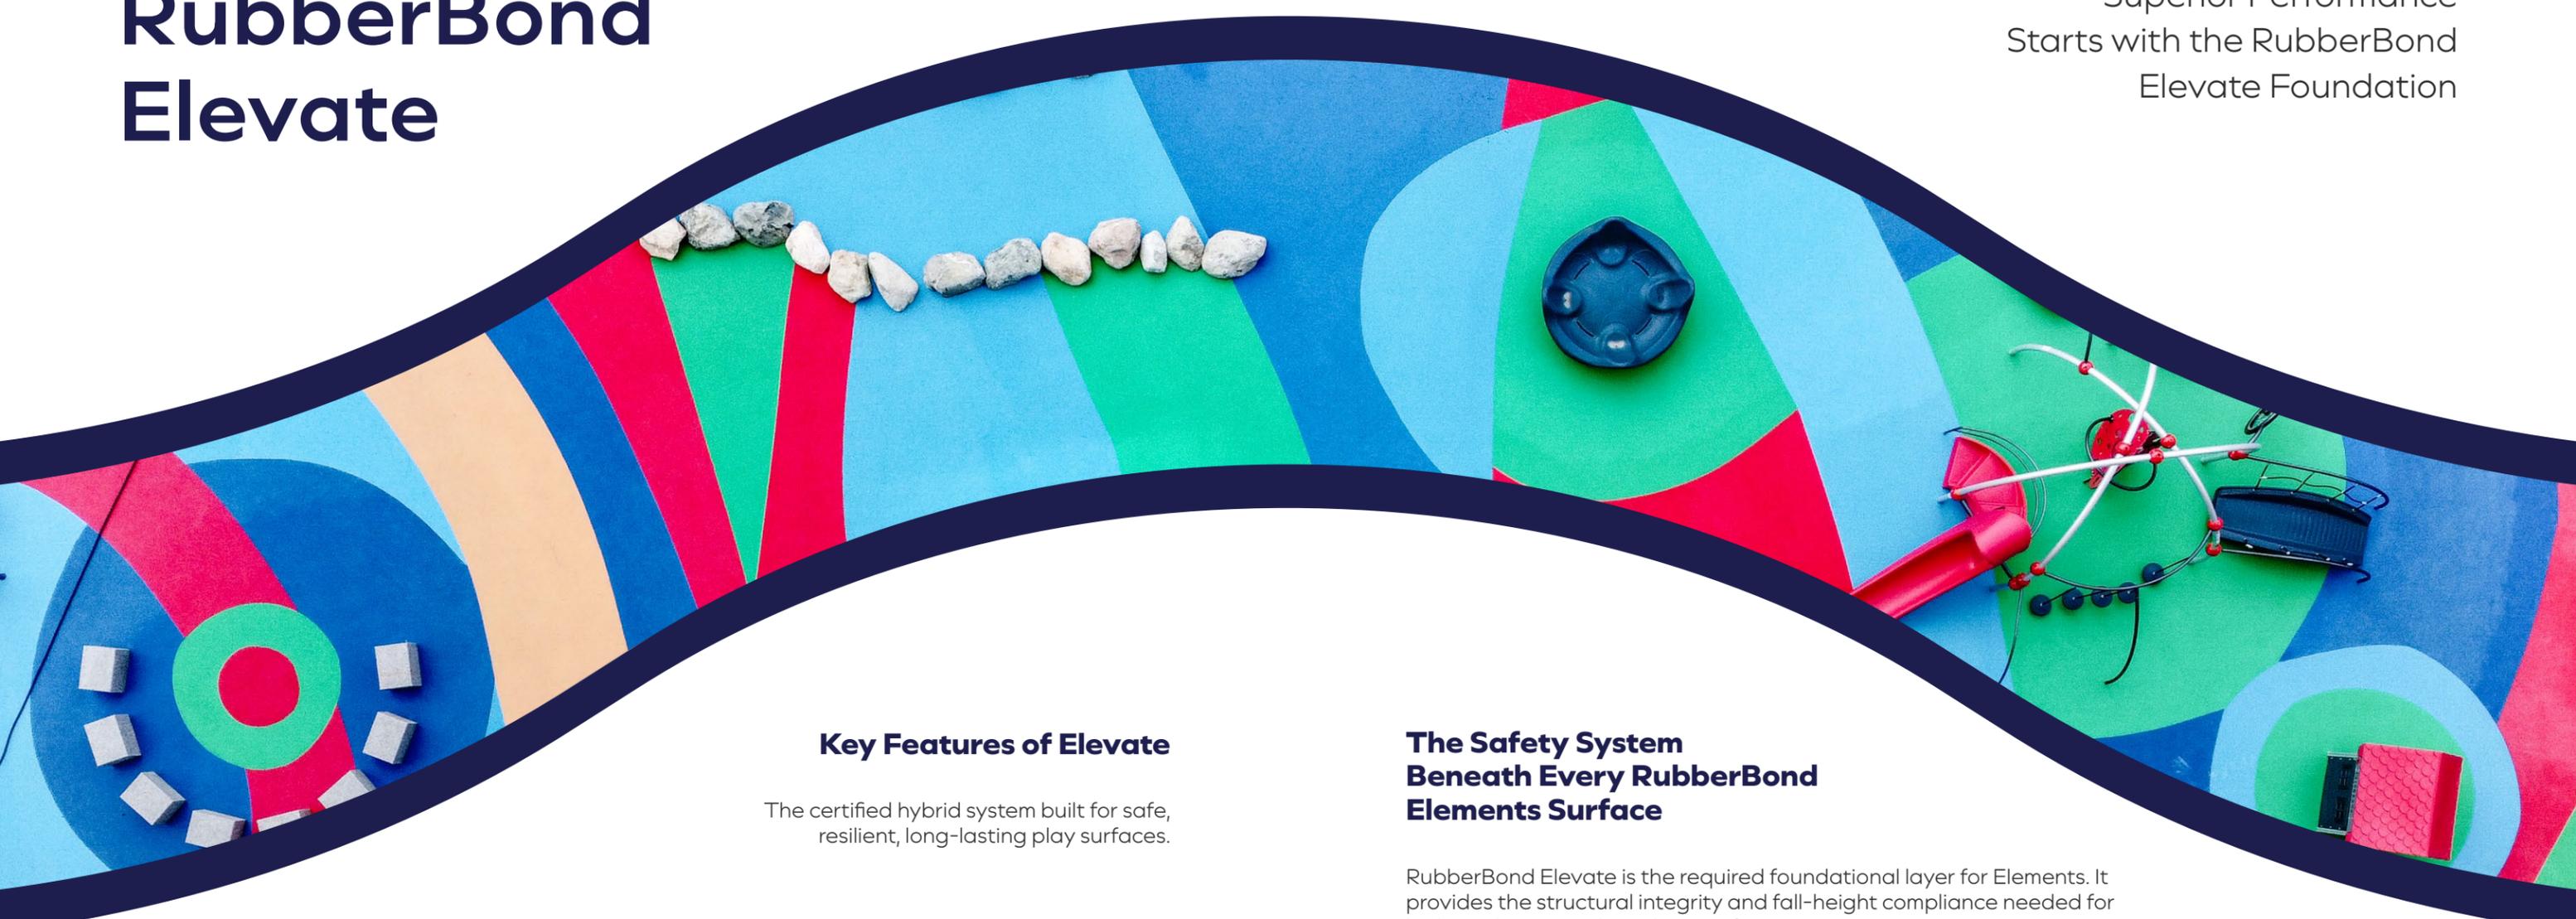

RubberBond Elements
=
Performance +
Design Innovation

Elements builds on that strength, adding premium design capabilities and custom detailing to create surfaces that are as beautiful as they are safe.

Our poured-in-place method allows for sweeping curves, custom 2D and 3D graphics and integrated thematic play elements, making the surface a true centerpiece of your space.

RubberBond Elevate

Superior Performance Starts with the RubberBond Elevate Foundation

Key Features of Elevate

The certified hybrid system built for safe, resilient, long-lasting play surfaces.

Hybrid bi-layer construction

1.5" EPDM wear course

3.5" binder-free rubber mulch cushion layer

Binder-free cushion layer maintains long-term softness and impact absorption

Full 5" uniform depth, providing consistent safety protection across the entire play area

Meets or exceeds ASTM, IPEMA and CPSC requirements

Fully ADA-compliant

Up to 14' fall-height performance

The Safety System Beneath Every RubberBond Elements Surface

RubberBond Elevate is the required foundational layer for Elements. It provides the structural integrity and fall-height compliance needed for high quality poured-in-place surfacing.

Ensures reliable, uniform impact attenuation

Guarantees fall-height compliance across the full surface

Provides optimal bonding strength for decorative layers

Supports the weight and complexity of custom graphics and themed designs

RubberBond Elements

What Makes RubberBond Elements Different?

We transform rubber surfacing into a creative canvas.

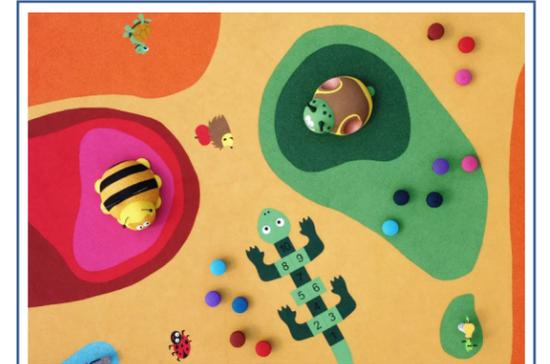

A System Designed for Innovation, Without Compromising Safety

RubberBond Elements turns standard safety surfacing into a high-impact visual feature. Our poured-in-place system supports smooth curves, specialized 2D and 3D graphics and integrated play features that bring your environment to life.

Fully Customizable Designs

Turn concepts into reality with detailed graphics, logos and themed play zones.

Vibrant, Long-Lasting Colors

Choose from wide-ranging EPDM color options engineered for long-term color retention.

Seamless Integration

Coordinate curves, colors and textures with playground equipment to create a unified, visually appealing space.

Durable & Safe

Developed with strict attention to system depth, subbase prep and material quality for long-lasting safety and performance.

CLASSIC

The CLASSIC collection features sculpted play units that elevate any environment with refined form, vibrant character, and purposeful design. Each 3D unit introduces a sense of wonder, transforming everyday play into an imaginative, story-driven experience.

Children can soar through the clouds on the Bee, embark on daring adventures atop the Spider, or find a moment of calm on the Sleeping Farmer. They can climb, explore, balance, and discover from every angle — each piece is designed to be interactive from the top and all around.

Thoughtfully scaled and beautifully crafted, the CLASSIC units create a dynamic, three-dimensional landscape that invites engagement, encourages movement, and inspires creativity at every turn.

MINI

The MINI collection introduces thoughtfully scaled play units designed to compliment the CLASSIC series with charm and versatility. Ideal for younger children or smaller play zones, these MINI sculptures spark creativity through approachable, tactile forms.

Children can tuck themselves inside a cozy snail shell, perch atop a hedgehog, or invent entire stories around these expressive characters. MINI units deliver the same craftsmanship and durability as our larger pieces, creating a cohesive, beautifully integrated play environment with endless imaginative possibilities.

BASIC

The BASIC collection enhances any play space with essential sculptural elements that invite movement, interaction, and open-ended creativity. Designed to work seamlessly alongside our 3D animal units, these pieces encourage children to hop, balance, climb, build, and explore at their own pace.

From Palisades and Half Spheres to the playful Little Builder, each element offers intuitive physical engagement while contributing to the overall visual rhythm of the environment. BASIC pieces help shape a dynamic landscape of functionality, design, and imagination.

 120 lb

EXTRA

The EXTRA collection brings bold sculptural presence and multi-age play value to the RubberBond Elements portfolio. These larger, more complex structures captivate adventurous children with opportunities to climb, hide, slide, and explore.

From the whimsical Hill on Springs to the dramatic Fox Burrow or soaring Lighthouse, each design introduces an experiential focal point within the play space. These units combine artistic form with purposeful functionality, inviting movement, discovery, and memorable moments of play. EXTRA elements create destination-level features that elevate the play environment.

2D EPDM GRAPHICS

Our 2D EPDM Graphics redefine what safety surfacing can be. With more than 200 meticulously crafted designs—and fully custom options available—these graphics transform ordinary rubber surfaces into vibrant visual experiences.

Produced from high-quality, UV-stable EPDM, each graphic maintains exceptional color retention and durability. From playful characters to educational motifs and imaginative patterns, these designs seamlessly integrate with our 3D units to create cohesive thematic environments. The result is a surface that is not only safe and resilient, but also engaging, expressive, and uniquely tailored to your space.

Do you need a pink elephant or an orange dog for your project? No problem. We can produce our 3D play units and 2D EPDM graphics from any of these 19 EPDM colors. We can also mix any combination of these colors. The 6 most popular mixes are shown below. All our EPDM surfaces meet hygienic standards of EN71 and are free of Polycyclic aromatic hydrocarbons as per REACH.
